EDUCATION

COLEGIO DE MONTALBAN

BS Computer Engineering

Montalban Rizal

Expected 2028

EXPERIENCE

Freelance Embedded Systems Developer

2025

- Developed custom hardware solutions across multiple freelance projects involving microcontrollers and embedded systems
- Programmed microcontrollers and integrated sensors and electronic components into client systems
- Collaborated directly with clients to design and build systems tailored to their specific requirements

PROJECTS

AI-ASSISTED CROP DISEASE DETECTION SYSTEM

2025

- Built an AI-powered web application that uses image recognition to help farmers identify crop diseases and receive treatment recommendations
- Implemented an interactive disease monitoring map with Leaflet.js for real-time tracking across farm locations
- Tech: React, Node.js, Express, Gemini API, Leaflet.js

DOCUMENT EDITING WEB APP

In Progress

- Building a browser-based document editor inspired by applications like Google Docs, with planned AI-assisted writing features

EMBEDDED SYSTEMS PROJECTS

2025

- Developed several microcontroller-based systems involving sensors, automation, and hardware integration for freelance clients

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Vite, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, Supabase

Languages: JavaScript, Python, C++

Tools: Git, GitHub, VS Code, Postman, Figma

Currently Learning: TypeScript, Authentication & Security, REST APIs, Database Design, AI Integration

INTERESTS

Full-Stack Development, Artificial Intelligence, Embedded Systems, Web Application Development, UI/UX Design, API Development, Cloud Technologies, Software Architecture
